

GitHub Setup - Fall 2021 Cohort 2

We'll be running our Discovery Program using GitHub Pages. This will allow you to create a website you can show off to friends and family! It requires a little bit of set up, so please follow the instructions below with the help of your mentor

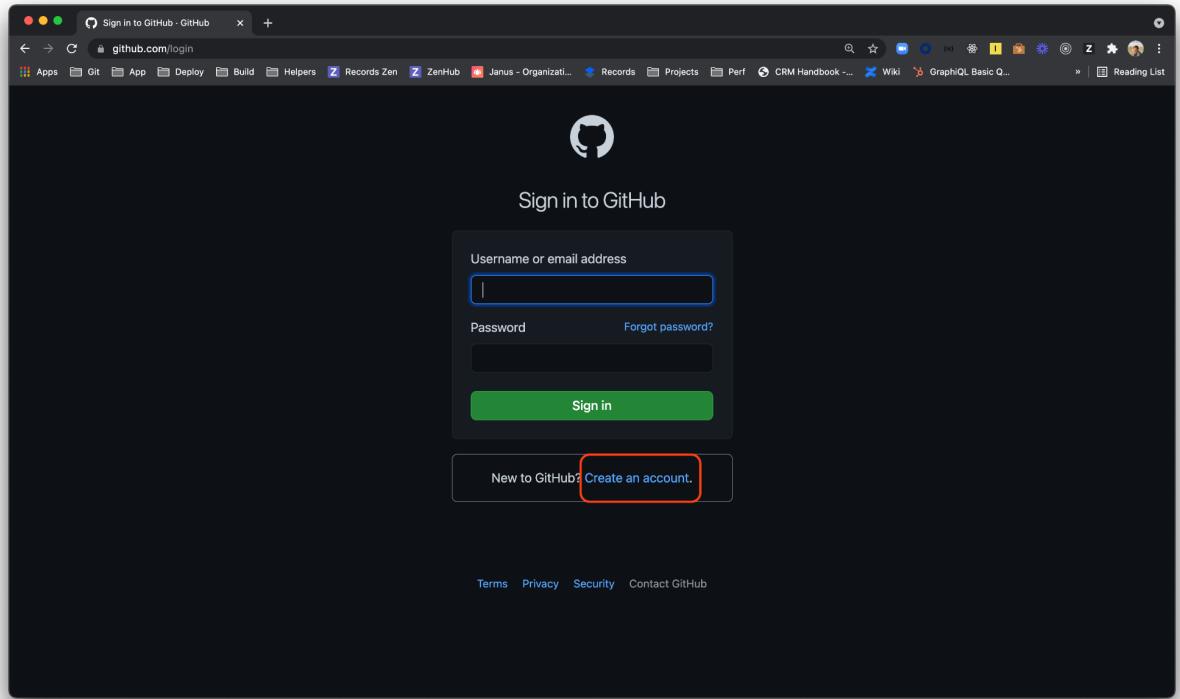

Part 1: Setting up GitHub Account

1. Go to github.com

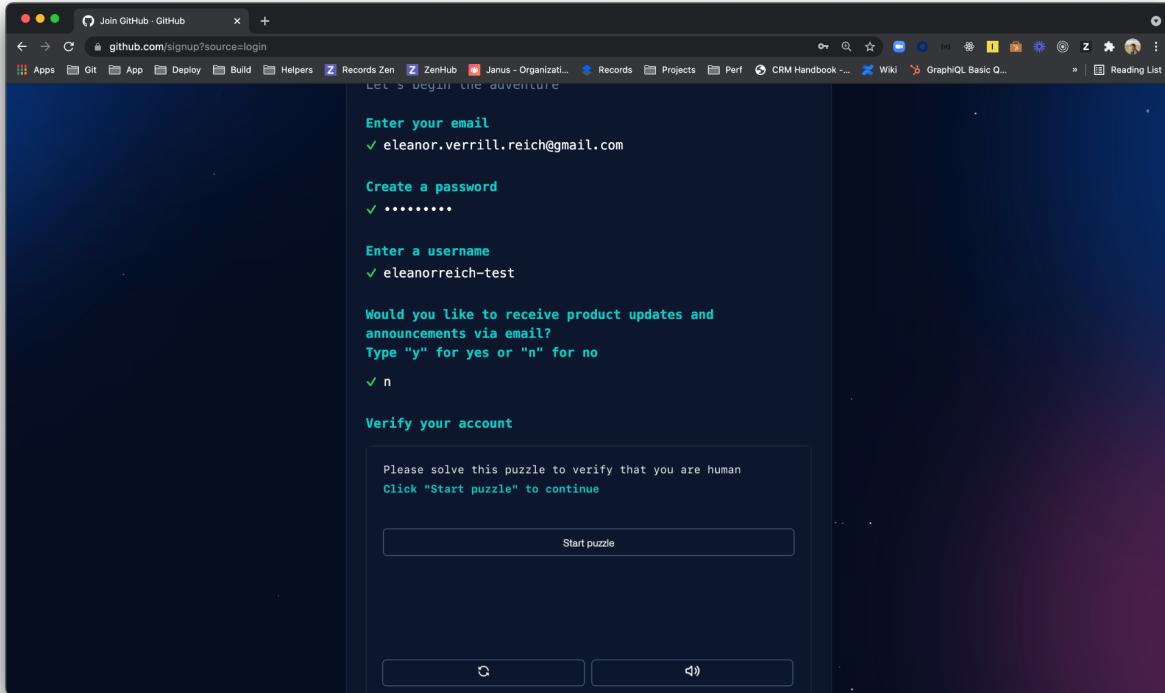

2. Click Sign Up

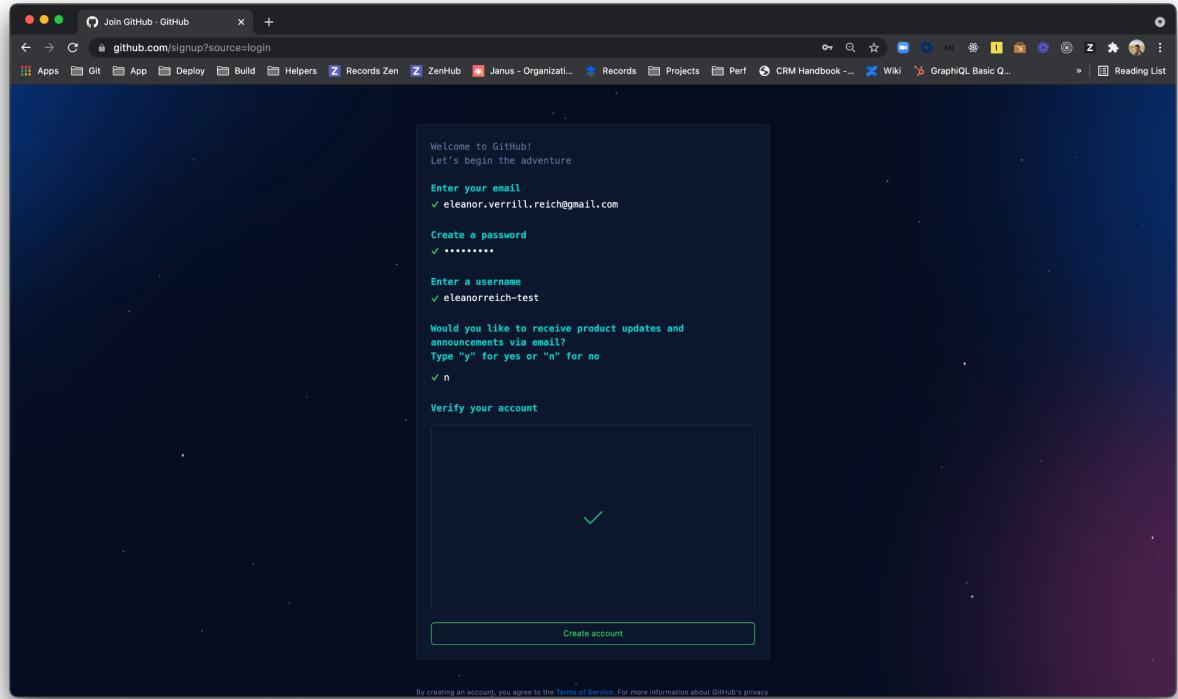

3. Click Create an Account

4. Fill out form with your name, email address, and user name

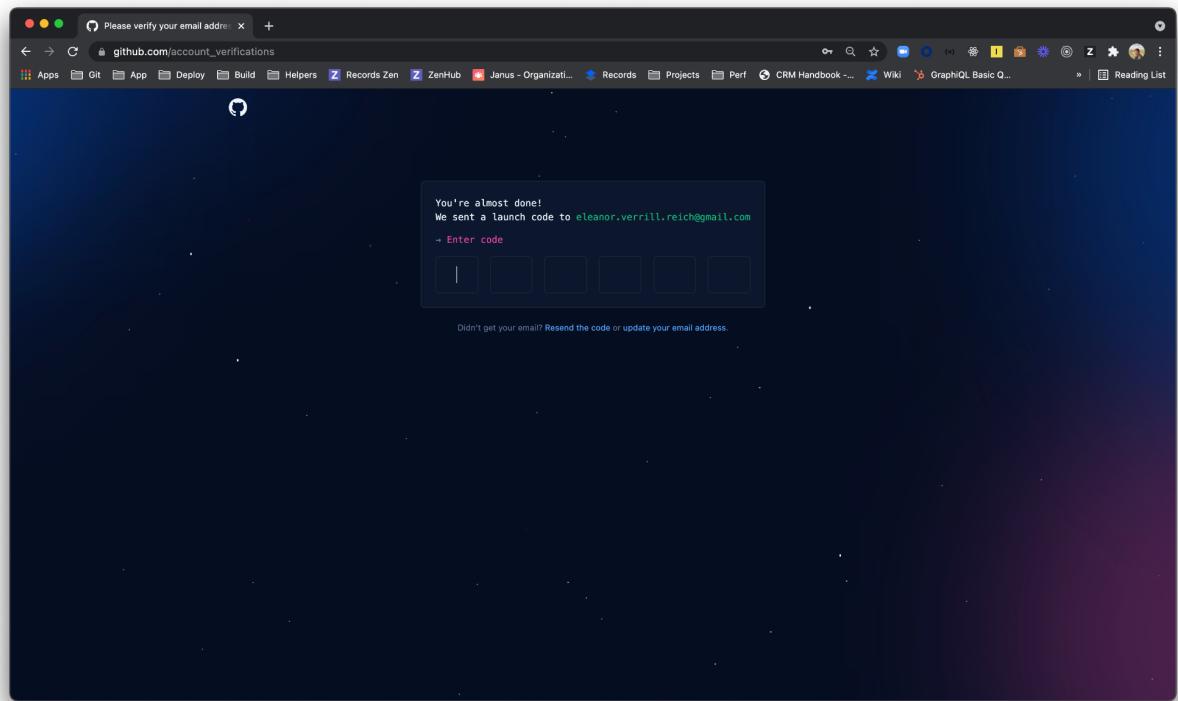

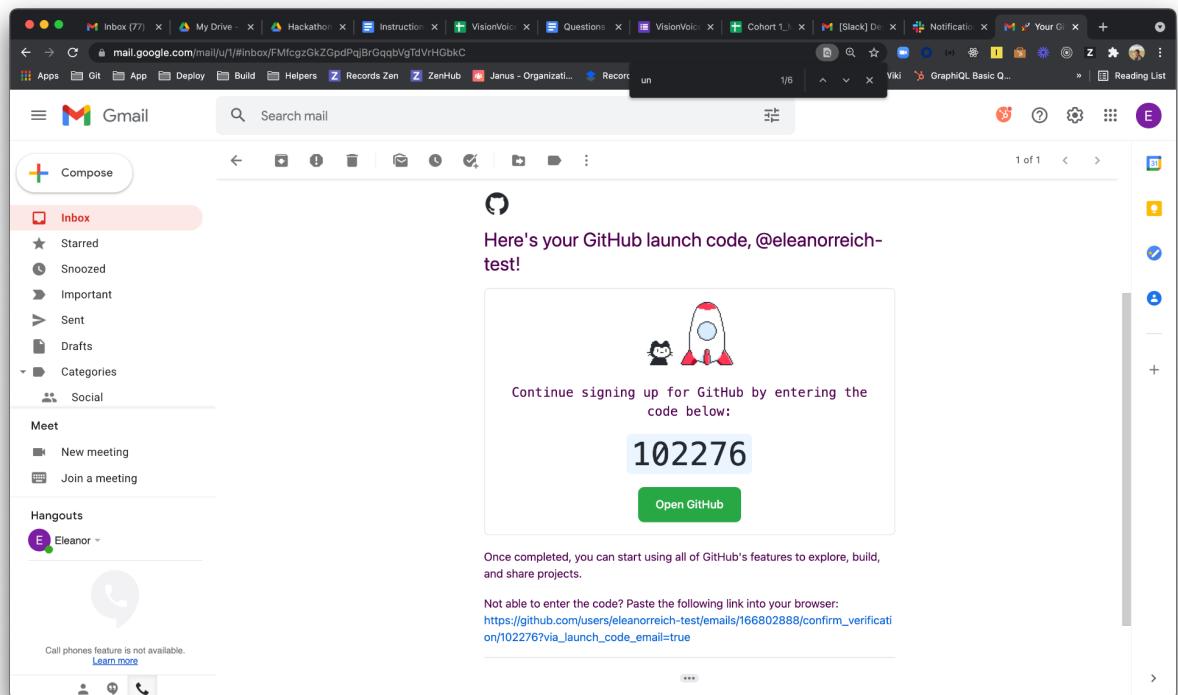

5. Do the puzzle to prove you're not a robot 🤖

6. Go to email and fill in verification code

The Subject line should be “🚀 Your GitHub launch code.”

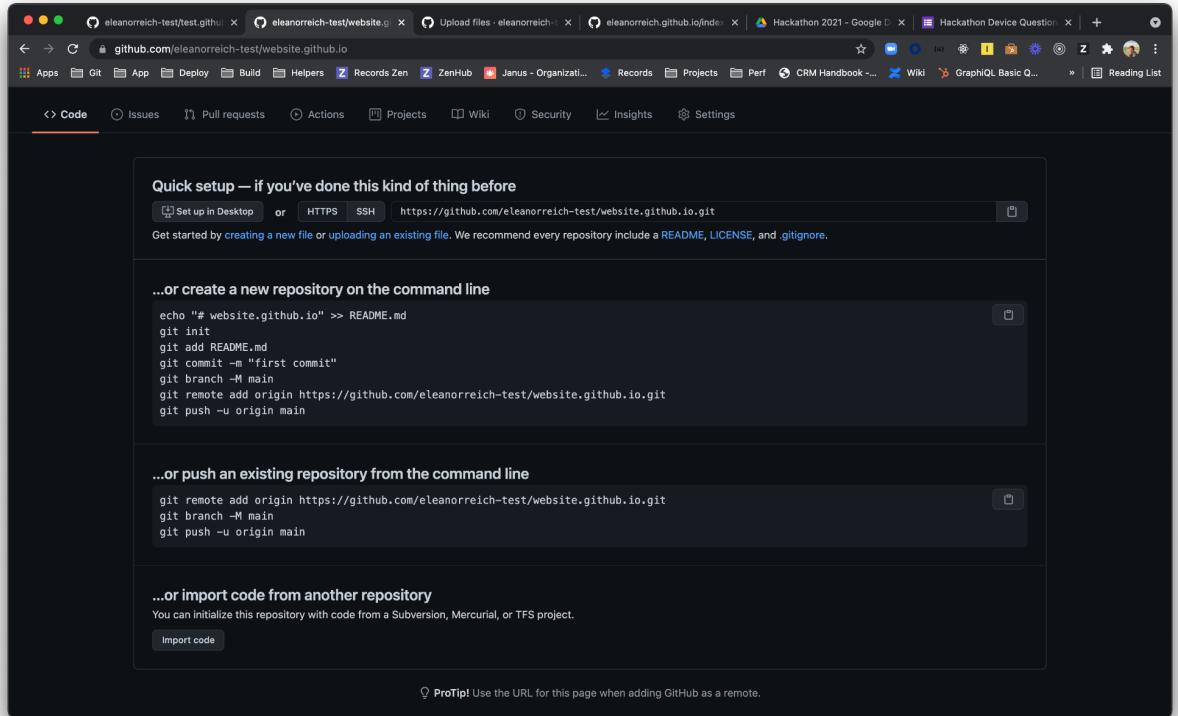

7. Voila!

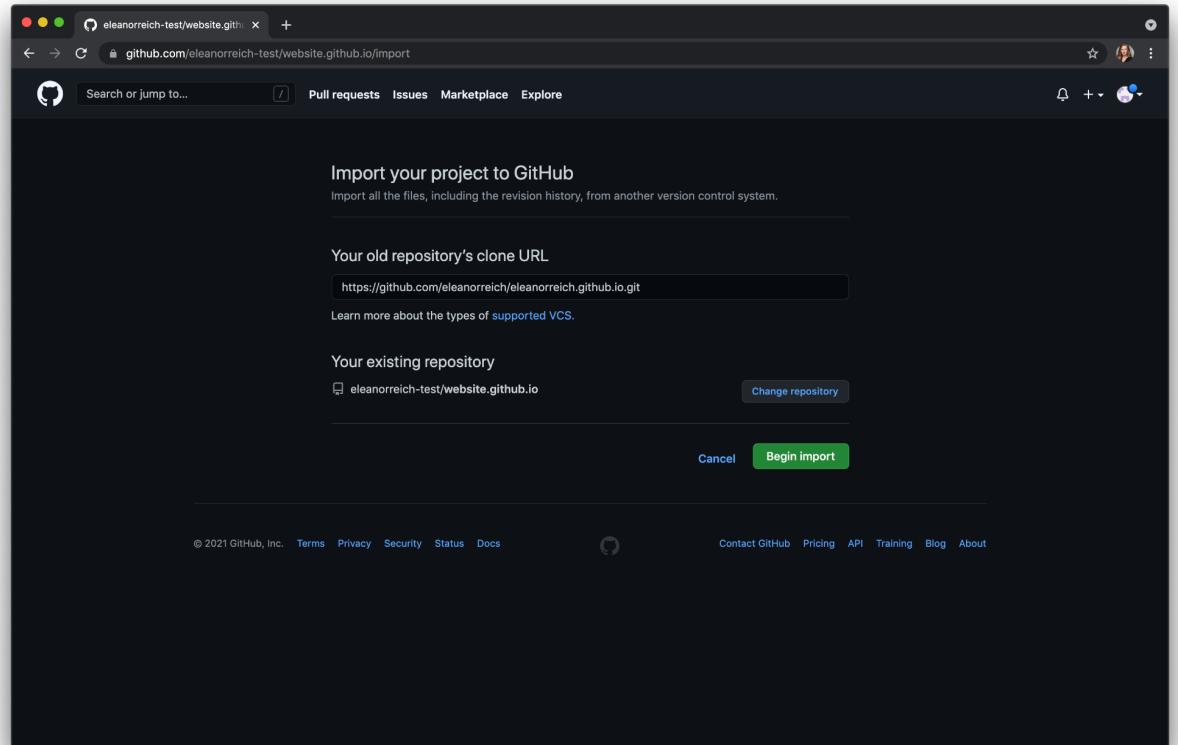

Part 2: Setting up a repository

1. Create a new repository called [YOUR_USERNAME].github.io

2. You should see a page like this

3. Click the final option Import code in "...or import code from another repository"
4. Paste <https://github.com/VisionVoiceIncDiscovery/Cohort-2.git> into the "Your old repository's clone URL" Section.

5. Voila!

Alternatively

1. Go to <https://github.com/VisionVoiceIncDiscovery/Cohort-2.git>
2. Click “Fork” in the upper right hand corner AND rename your project to [YOUR_USERNAME].github.io
